

Datasheet:
MAGNETIC SENSOR CLAMPING
BLOCKS 50MM-2000MM+
Part Number – MAGBLKSTD

- Size Range: 50 – 2500mm *
- For use with Standard Sensor: SENSTDXXMX
- Stainless Steel Construction
- Proven easy to use powerful magnetic clamping action

The Oneflow Magnetic Sensor Clamping Blocks are ideal for temporary use on large steel ferrous pipes with the standard sensors SENSTD05MX & SENSTD1MX in both V & Z modes. Stainless steel construction. Use with a bubble level, tape and marker pen to work out the sensor separation. Part number: MAGBLKSTD (Pipe size 50 – 700 mm)

Options: Order BUBBLEMARKERKIT for alignment bubble level, 10 metre retractable tape and permanent marker kit. (These items come as standard in the 400-PF kit).
